

Your Airfield Solutions Partner

Safe, Efficient & Green

Solutions to Aviation's BIGGEST Challenges

As a world-leading provider of airfield management and maintenance tools, Team Eagle offers solutions to aviation's biggest challenges:

Runway Excursions

Airfield Incursions

FOD

Bird & Wildlife

Vocational Truck Rollover Prevention

Snow and Ice Control

Safe Surfaces

Situational Awareness

COVID 19 / Contagion Mitigation

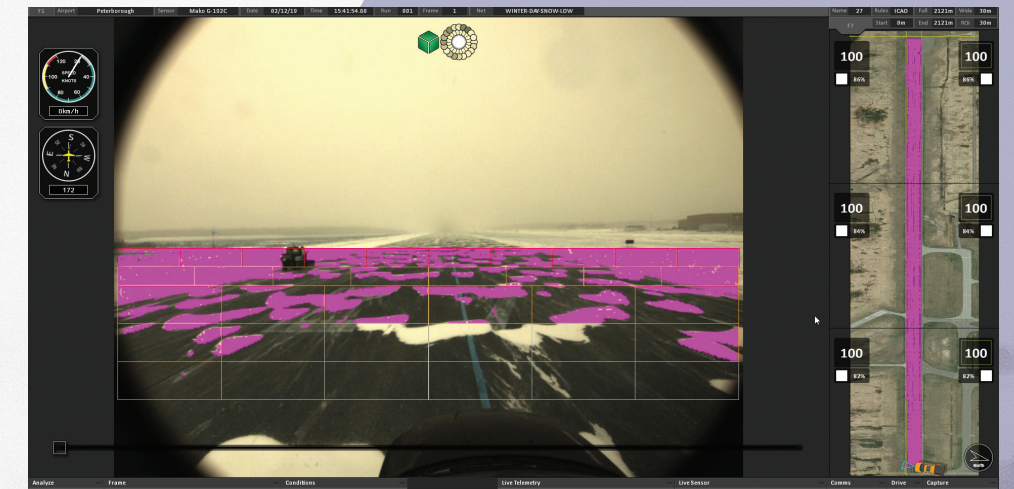

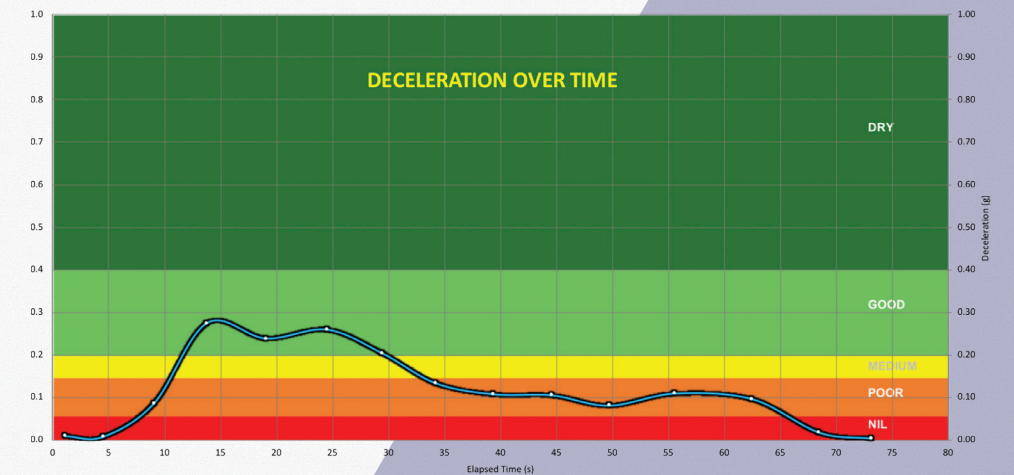

Airfield Equipment, Digital GPS/GIS Software, Hardware & Electronics, Systems Integration

New Gen 22 RCR

Integrated, machine learning and artificial intelligence enhanced, objective measurement and reporting of runway conditions:

- ✈ Smart camera, ML & AI contaminant coverage, type, and depth
- ✈ Runway friction coefficient (Decel & CFME)
- ✈ Aircraft anti-skid wheel braking coefficient availability
- ✈ Surface and ambient temperature
- ✈ Last landing aircraft braking & directional compliance
- ✈ ICAO, State, and TALPA Global Reporting Format
- ✈ Aircraft, ground vehicle, and global cloud based systems
- ✈ Airport, airline, and aircraft type, agnostic sensing
- ✈ Real Time Augmented Reality (BAT, Drone, GRF, TALPA, RCR)
- ✈ Supplementary drone sensing coming soon

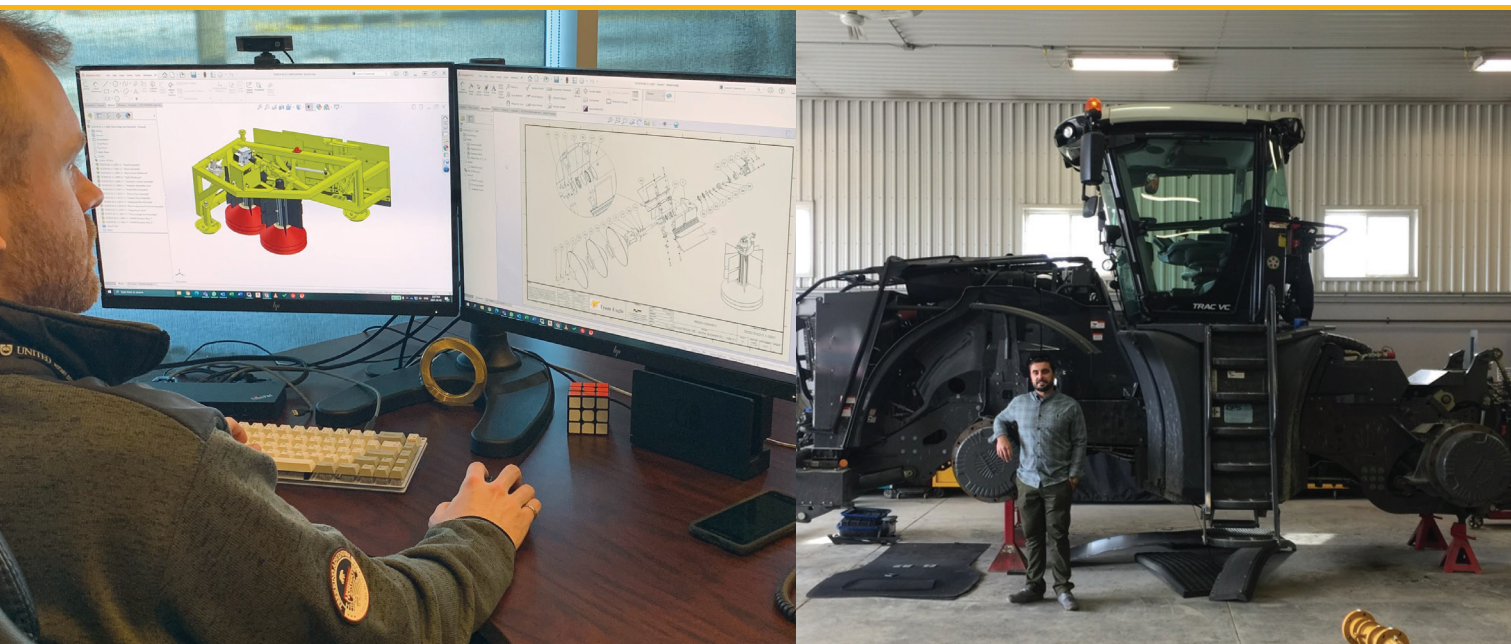

Unique Eagle Technologies in NG21RCR
 ML/AI/Smart Optics Runway Cameras
 BAT aircraft braking system in ground vehicle
 Aircraft as runway condition sensors 24/7
 Real time monitoring, reporting and alerting
 ML and AI inter-sensor system self calibration

Safer objective runway condition reporting
 More efficient, lower runway occupancy times
 Greener – through efficiency of ground & air operations

Always Innovating

FODCOMMANDER

FOD - NOT ON MY WATCH.

As most of you know the BIG NEWS earlier this year was the Partnership between Team Eagle and Myslik, Inc forming a new Colorado based company:: EAGLE & MYSLIK, INC. More exciting news is that we are very pleased to announce that we have also teamed up with FRICTION SWEEPERS INTERNATIONAL, whose founding pair have over 40 years of experience in designing and building Friction Sweepers . The Friction mat is named the Commander and has evolved further under the direction of the owner and has unique features that make it the best solution to FOD on the market. Our companies are always searching for the most cost effective, quality products to better support our customers and we feel this product has raised the bar for performance, quality, reliability and cost effectiveness. Let us help you keep your Airfield clean and safe as we have done for many years.

Please contact us for all of your FOD Removal requirements as we continue to do our best to support you.

Eagle-CLAAS

CLAAS Xerion 5000 EAE
Eagle Airfield Edition

CLAAS

- All Seasons
All-Purpose
- 5 Minute
Attachment Change
- Lower Life Cycle
Costs
- Increased
Productivity

530 HP Multi-Directional “Tructor”

- 3-8,000 TPH ribbon and auger snowblowers
- 10,000 TPH Coming Soon
- 42' airfield mower
- 25' reach, ditch & slope flail mower
- 18' - 44' runway and ramp multi-plexing snowplows
- 100's of airfield, construction, landscaping, forestry and agricultural attachments
- All season, 24/7 workhorse

Ask us to perform a custom life cycle cost analysis.

It's in a “CLAAS” by itself! 😊

Ask us about in stock units.

All Season Airfield Equipment

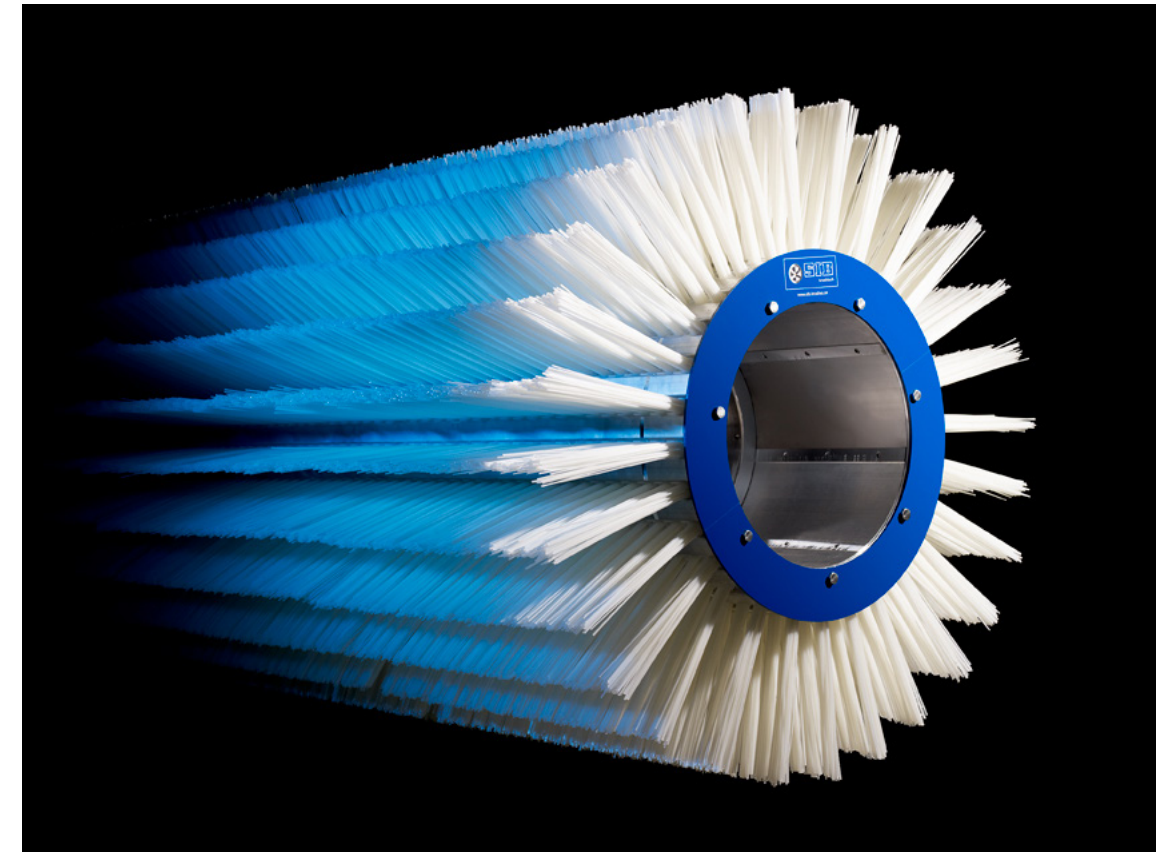

Cassette Brush System

When people talk about airport security or safety, what they're normally referring to is entrance, passenger and baggage control.

But the concept encompasses much more than this. For example, it's important for an airport to be able to guarantee the condition and quality of its runways at all times, as this can be a decisive factor in ensuring the passengers' comfort and safety.

When SIB started developing this system, their aim was to improve on the inefficient systems they had seen in use. But as the project progressed, so did their ambitions.

As they developed the main parts of the system – the dynamically balanced core and the unique SIB original cassettes – they started to realize that they had not only created what was possibly the world's most efficient and safest system for cleaning runways; they also created a system that optimized the owner's financial resources and the user's safety and health, while minimizing the impact on the environment.

Safety & Efficiency Through Situational Awareness

Custom Aerospace Electronics, Software, & Hardware

Asset Tracking & Incursion Management System with RIWS

ATIMS™ Lite

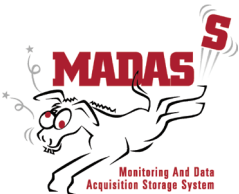

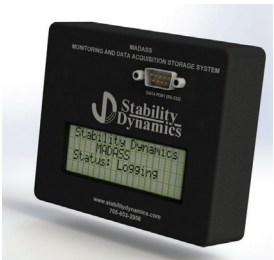

Rollover Warning System
The LG Alert™ is a patented Roll-over Warning System designed to assist drivers in recognizing when they are approaching the safe operating limits of their vehicle.

LG Alert™ Military
Tilt Table Validation

LG Alert™ in ARFF Vehicle

MADASS™

A Monitoring and Data Acquisition Storage System designed to meet the requirements of NFPA 414 and FAA Advisory Circular 150/5220-10E.

Driver Enhanced Vision Systems

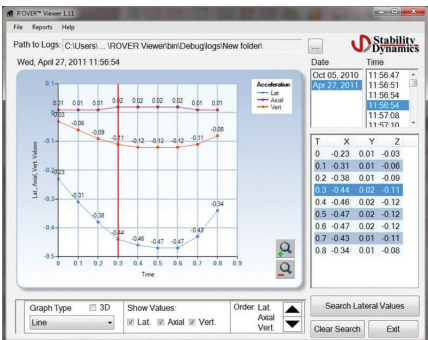

R'OVER™

The R'Over's design is based on the safety success created by the LG Alert™ and incorporates additional functionality for vocational vehicles.

R'Over™ System In-Cab
Visual/Audible Display

Customer Service, Warranty & Support

Our dedicated team is ready to serve your technical needs. Diagnosis, training and specialty parts for every situation and every season.

1975 – 2021
Celebrating 45 Years
With Products In
Over 100 Countries

Customer Service

Whether you have a parts question, a troubleshooting concern or simply need assistance gaining some product knowledge, Team Eagle is there for you!

Warranty & Support

All our products come with exclusive warranties that cover upgrades, parts and labour. Extended service and warranty support agreements are also available.

AirfieldTrader.com Buy & Sell Marketplace

AirfieldTrader.com is an online marketplace hosted by Team Eagle, offering airports a secure and trusted source for buying and selling used airfield equipment and parts.

Eagle Aerospace Ltd.

Eagle Aerospace is the think-tank for the Team Eagle companies, engaging with our customers to understand their challenges, collaborate on possible solutions, design prototypes, test and further develop ideas into real-world innovation.
