RS 200 Performance Line

ØVERAASEN
SNOWREMOVAL SYSTEMS

The **ØVERAASEN RS 200 Performance Line** is the medium size machine among the ØVERAASEN Runway Sweepers. The RS 200 distinguishes itself thanks to its intelligent modular structure and the flexibility for different jobs. This machine, which is unique in the market, unifies the 4 most important benefits: Efficiency, reliability, functionality and low operation cost. The machine is designed with high-tech materials to provide an advanced and innovative concept in terms of components, surfaces, aerodynamics, user friendly and low life cycle cost.

RS 200 Performance Line

ØVERÅSEN
SNOWREMOVAL SYSTEMS

// ADVANTAGES

- Large size brush diameter
- High capacity air fan
- Modular system
- Aerodynamic design
- User friendly operation
- Automatic brush adjustment
- High-end EU Stage V / Tier 4 engine technology
- On-board diagnostic tool
- PC-based service tool
- Ergonomic man-machine interface
- Low operational and maintenance cost
- Easy access to all service points
- Biofuel for both engines
- Prepared for Driver Assist
- Prepared for Autonomous Operations

// TECHNICAL DATA

Length wo/truck	11 340 mm / 37 ft 2 inch	Blowing speed	150 m/s / 340 mph
Height	3 050 mm / 10 ft	Air blower capacity	40 000 m³/h / 1 410 000 ft³/h
Width transport	2 800 mm / 9 ft 2 inch	Engine	MTU 6R1100 EU Stage V / Tier 4
Brush diameter	1 170 mm / 3 ft 10 inch	Power rating at 1700 rpm	280 kW / 380 HP
Brush material	Steel or poly	Fuel tank	1 000 liters / 264 gallons
Brush speed	0 - 720 rpm	Hydraulic oil tank	150 liters / 40 gallons
Clearing width at 32°	3 600 mm / 11 ft 10 inch	Electrical system	24 Volt / 180 Ah
Working speed	Max 65 km/h / 40 mph	Controllers	Danfoss Plus1
