ØVERAASEN
SNOWREMOVAL SYSTEMS

The **ØVERAASEN Airport Snow Plows** are designed for snow removal at airports in combination with ØVERAASEN runway sweepers. The element snow plows are designed with independent elements which are resiliently suspended from the main frame, with the aid of 4 arms, 2 arms at the bottom of the element and 2 arms on the upper part of the element. The plows can be equipped with the controlled float system which makes it possible to operate the snow plows without support wheels.
