

RS 600 Performance Line

The ØVERAASEN RS 600 Performance Line is by far the world's largest and most powerful runway sweeper. It makes airport snow clearing even more efficient and safe for the environment. This machine sets the standard when it comes to focusing on optimizing the snow clearing fleet with fewer machines, increased capacity, performance and professionalism and reduced operational cost. The machine is prepared for the future and can be operated with a driver assist system or a full autonomous system.

RS 600 Performance Line

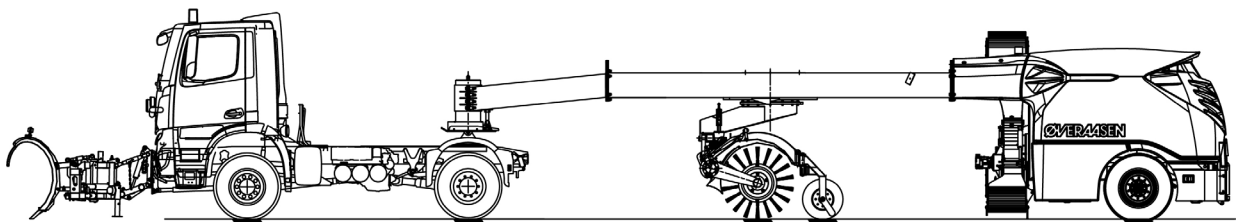

// ADVANTAGES

- Clearing width 7 500 mm / 25 ft
- Less units to clear the runways and taxiways
- Less maintenance cost
- Lower investments
- Less operational coss
- Twin brush system
- Heavy duty plough with unique lifting device
- Biofuel for both engines
- Rear axles steerable with air suspension
- Prepared for Driver Assist
- Prepared for Autonomous Operations

// TECHNICAL DATA

Length w/truck	23 000 mm / 75 ft 5 inch	Clearing capacity	488 000 m ² /h / 5 252 000 ft ²
Height	4 000 mm / 13 ft 1 inch	Blowing speed	150 m/s / 340 mph
Width transport wo/plough	3 900 mm / 12 ft 10 inch	Air blower capacity	60 000 m ³ /h / 2 200 000 ft ³ /h
Width transport w/plough	6 000 mm / 19 ft 8 inch	Engine	Volvo TAD1385 EU Stage V / Tier 4
Brush diameter	1 170 mm / 3 ft 10 inch	Power rating at 1900 rpm	405 kW / 543 HP
Brush material	Steel or poly	Fuel tanks	1 550 liters / 340 gallons
Brush speed	0 - 720 rpm	Hydraulic oil tank	220 liters / 48 gallons
Clearing width at 32°	7 500 mm / 24 ft 7 inch	Electrical System	24 Volt / 180 Ah
Working speed	Max 65 km/h / 40 mph	Controllers	Danfoss Plus1
